DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19, 28-31 and 37, drawn to a system and method for dimensionally transform a pointset, classified in class 708, subclass 401.
- II. Claims 20-27 and 32-36, drawn to a system and method for dimensionally transform a data point, classified in class 708, subclass 400
- III. Claim 38, drawn to data packet, classified in class 700, subclass 100.
- 2. Because inventions as set forth above are clearly patentable different and distinct from one to another, and each clearly has a separate utility by itself, and because the search required for one Group is not required for another Group. The restriction for examination purposes as indicated is proper.
- 3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Tuesday-Friday.
